 - l. Contractor shall have to give OFF/REST to his labours as per Factory Act.
 - m. The contractor shall ensure timely payment of wages as per provision of payment of wages act and other labour laws in presence of the representative of the Personnel Department.
 - n. The successful bidder shall have to submit the labour License issued by the competent authority under Contractor Labour (Regulation & Abolition) Act.
 - o. For implementation of all provisions contemplated under contract Labour Act and its rules made there under & thereafter, the contractor shall have protected his workmen under the scheme of Workmen Compensation Act TTPS shall not be liable for any compensation in the event of any Accident/causality to the contractor's workmen.
 - p. All items not shown / specified but reasonably implied or necessary for successful completion of work shall be provided by the contractor at his own cost. Decision of the Engineer-in-Charge will be final in this regard.
 - q. Monthly progressive payment shall be made on rake basis.

18. SPECIAL TERMS & CONDITION:-

- a. Completion period for this work shall be limited to 500 rakes.
- b. All the jobs are to be done as per Scope of Work and terms & conditions etc. and up to the satisfaction of TTPS.
- c. The decision of TVNL/TTPS shall be final and binding to the contractor in all respect.
- d. Any work beyond the contract provision may not be taken up by the agency under any circumstances without the written clearance by the department.
- e. All statutory liabilities are to be discharged by the agency within their quoted value at no extra cost to TTPS.
- f. Industrial and Railway safety rules are to be followed during execution of contract.
- g. No claim against idle labour charge shall be entertained by TTPS in any case.
- h. Agency will not deploy any minor labour.
- i. Any worker of the agency, if found violating discipline of the plant, the contractor will be held responsible and suitable action will be taken on the agency as well as on the worker.
- j. Precautionary measure to avoid damage of other equipment: The contractor shall take care for safety of equipment and property of TTPS. Any loss to this effect will be contractor's responsibility entirely and they shall have to make good for the losses and extra expenditure incurred by TTPS.
- k. Necessary liaisoning with the railways so as to minimize/ avoid any bunching of racks due to delay in previous rake unloading.
- l. Discipline: The contractor's employees should maintain proper discipline and behavior and not cause any hindrance of smooth running of the CHP / power plant or in execution of their duties. Engineer-in-charge of the work is fully empowered to ask the contractor to withdraw any worker / workers on charges of misconduct / incompetence / negligence in discharge of duties and such worker / workers must not be deployed without their permission.

19. Penalty clause:-

If TTPS is forced to engage any other agency to complete any leftover job of the job within the scope of the contractor but not done after pointing out the same by the Engineer – In charge, the expense so incurred by TTPS will be deducted from the contractor's bill @ 1.5 times of the value of works as a penalty.

For unsatisfactory work, recovery will be imposed as per the following table:

Sl. No.	Item,	Penalty per case,,
a.	Labour should be engaged within 15 minutes from time of placement of rake / wagons. Delay in commencing of unloading of coal rakes due to non availability of manpower on placement of wagons on Track Hopper. ,,	Rs.1000/- per hour delay
b.	Delay in unloading of coal rakes due to non-removal of coal / boulders from the track hopper,, wagon	Rs. 500/- on each
c.	Non-availability of tools and materials such as / pocking Rods/ stone breakers / hammers / wagon unloading nozzle and other tools,,	Rs.50/- per person ,
d.	Non – adherence to safety norms	Rs. 50/- per person ,

21. Special Condition for the scope of work:

- a. In order to sustain the engaged contractor's workforce, if the rakes supply in any particular month is being disrupted or intake of rakes goes down below 12 rakes for any reasons / factors, whatsoever, not attributable to contractor, the firm will be entitled to receive assistance payment from TTPS equivalent to the shortfall from 12 rakes i.e. If rakes unloaded are greater than or equal to 12 rakes in any particular month no assistance payment will be made, but if rakes unloaded is less than 12 rakes in any particular month assistance payment equal to the rake unloading value unloaded less than 12 rakes will be paid extra in addition. (For example: If 10 rakes are unloaded in any particular month then assistance payment for (12 - 10 = 02) i.e. for two rakes will be paid extra in addition to the value of unloaded 10 rakes).
 - b. During daily inspection, if the boulders removal and cleaning as per scope are found unsatisfactory, the penalty, in addition to others as mentioned earlier, will be imposed on daily basis for 3 days. In case the party fails to clear or work as pointed within 3 days, a caution letter will be issued to the party on 3rd day and outside agency will be engaged for which @ 1.5 times of the expenditure incurred for engagement of an outside party will be deducted from the bill/security deposit of the party in addition to imposed penalty.
 - c. The agency will ensure complete unloading and release of coal rake in stipulated time of 2.00 Hrs. from the placement of same on track hopper.
 - d. The agency will be charged the demurrage amount of penalty claimed rake wise by Railways.
2. In case of non-arrival of coal racks in any particular month agency should utilize/ engage their work men in idle period in the other associated work of track hopper.
- a. Cleaning of coal from the surface of rail track as wet coal stick in the steel of Rail track at unloading point.
 - b. Cleaning of coal dusts which have settled in the steel structure/ walls of the truss of track hopper during the course of unloading by the use of compressed air.
 - c. Supervision and monitoring of structure of traction line & rail track from entry gate to exit gate of power house.
 - d. Any other similar work felt essential for smooth functioning of the system shall have to be done by the workmen as per direction of the E/I other than scope of unloading.

22. General Guideline of the Work :

The agency will have to provide a telephone and mobile numbers of responsible person at field level who can be contacted at any time of day or night in emergency. The responsibility should be under taken round the clock basis, including holidays.

The contractor employees should wear distinctive uniform when on duty (sample as approved by engineer I/C) with helmet and safety shoes etc. shall be provided by the firm. The identity cards to the all employees, supervisor shall be provided by the firm. The turnout should be smart and tidy. The Employees during duty should have all accessories like duster cloth, broom, poking tools and torch etc. The contractor shall provide identity cards to his employees at his own cost.

Engineer I/C or his authorized person can check the attendance of the staff on duty at any time during duty hours in a day. If any absenteeism/abnormality/short fall found, a penalty of that day salary per person found absent will deducted. Further, no payment will be made to the contractor against absenteeism/shortfall of manpower at the rate per day wages per person.

For the purpose of monitoring, the area has been divided into sections/locations and their sub – locations. The contractor has to maintain a diary for verification of duty performed and get it signed with remarks by the in-charge of that section, subsequently the same will be cross checked by nominated person. In case any adverse remark found, a penalty of minimum Rs. 500/- (Rupees five hundred) only will also be imposed.

The agency shall ensure that no unauthorized persons create any nuisance, disturbance, theft or pilferage of TVNL property or unauthorized transportation. The agency shall apprehend culprit and bring it to the notice of authorities of TVNL. If directed, the agency shall hand over them to local police authorities and follow – up the cases with police authorities on behalf of the TVNL Management and keep a close liaison with local police authorities for follow up action.

23. The agency shall submit necessary report to the TVNL regarding unusual occurrence or untoward incidents within one hour through phone/mobile for this purpose. The agency shall carry out any other task relating to subject work as desired by TVNL management in the interest of care taking duty
24. The contractor shall have to obtain Labour License from labour department.

27. The agency shall employ only such staff that are literate, physically fit having good character, well behaved and skilled in their duties and also will undertake to discharge such employee who are found to be creating nuisance or who are not able to measure up to the required standard. It should also be ensured that, the employees, employed by the agency are having proven antecedents and no police case etc. are pending against such people. The agency shall be solely responsible for all acts of commission/omission of its employees. They have to produce certificate of character and no police cases i.e. police verification on firm's account. They have to submit bio –data of the people to be employed. The agency will discharge /change /transfer any of his employee who is found un – suitable, not physically fit or in capable of performing duties, the firm has to change the such staff on recommendation made by Engineer I/C. The agency shall depute the staff who should be preferably previous working experience of similar job.
28. Age: - No employee should be aged below 18 years and not exceeding 60 Years of age and it shall be mentioned in Plant identity card.
29. The contractor shall arrange residential accommodations/medical facilities to their employees on their own.
30. Agreement: The firm or his legally authorized representative having Power of Attorney will have to execute an agreement with the ordering authority within 25 days of issue of order in the event of placement of order on them. The agreement will have to be prepared on a non-judicial stamp paper of Rs.100/- on Nigam's format. Bank Guarantee against Security Deposit, Performance Guarantee etc. as per order will have to be furnished well before execution of agreement. The contractor is required to produce all original paper and documents for verification before agreement failing which order will be cancelled. Contractor will not be allowed to start the work without executing the agreement.
31. Jurisdiction of Court: Any dispute between the Contractor and TVNL shall be settled in the civil court, at Ranchi, Jharkhand only.

32. Labour Laws: The bidder has to follow the guidelines laid under the labour law, workmen compensation, and EPF rules in respect of minimum wages, EPF payment, ESI registration of all its employees and monthly/Yearly premium payment as per the guidelines of State Labour Deptt. and other service conditions. In the event of any accident / casualty to the employees of contractor, the compensation payable to the employees is to be borne by the contractor and TVNL will not be responsible in any way.
33. Minimum Wage Guarantee: The contractor shall strictly ensure that the minimum wages as stipulated by GoJ from time to time is paid to their workmen. Any increase in minimum wages during the period of contract, will have to be paid to their workmen without any claim on TTPS/TVNL. If the contractor fails to comply with guarantee of minimum wages then the agreement is liable to be terminated and security money may be forfeited.
34. Taxes: All statutory taxes as applicable shall be deducted from bill of the contractor.
35. Violation of Terms & Conditions of Tender: All terms and conditions of tender shall form a part of the contract. If contractor fails to execute the work up to entire satisfaction of Engineer -in -Charge as per terms & conditions of tender, then the contract agreement can be terminated after one month prior notice and security money shall be forfeited.
36. Subletting: The successful bidder will have to execute the work directly. No subletting will be allowed.
37. Competent Authority: Managing Director TVNL reserves the right to extend the due date and to reject any/all the tenders or to increase / reduce/ distribute the quantity of tender without assigning any reason thereof and not bound to accept the lowest tender or to assign any reason for the rejection of the lowest tender. During the execution of work in case of any dispute between the Engineer-in -Charge and contractor, the decision of GM- cum-CE, Tenughat TPS will be final and binding.
38. Man Power: A list of manpower arranged by the contractor should be submitted to Engineer -in -Charge of the work before deployment and same should be deployed with due permission of Engineer -in -Charge. If the performance of the deployed person is not found up to the mark at any time, the contractor will have to replace them with experienced and suitable person.
39. Tools & Tackles: The contractor should have to arrange minimum of minor and special tools & tackles as per scope of work.

Sub: Unloading of coal from BOBR wagons, total 500 nos. coal rakes along with other associated works of Track Hopper at CHP-I, TTPS, Lalpania.

SCOPE OF WORK

1. Unloading of wagons / coal rakes by deploying adequate semi skilled / unskilled manpower.
2. Breaking the lumpy sized coal & boulders.
3. Every lump of coal to be pushed inside the Track Hopper immediately after unloading, Big size coal, if any is to be broken into pieces to pass through the gratings installed at the track hoppers.
4. No big size coal is to be pushed inside the hopper without breaking; stones are to be removed from the track hoppers and segregated from coal and kept outside the walkway, keeping the track hoppers and walkway clear. Suitable means to segregate big stones from coal and keep the same aside are to be used as per requirement.
5. Removal of stones, boulders & other extraneous materials from grating to outside the track hoppers to make space for unloading of another coal wagons.
6. Removal of arching of RCT coal hoppers as and when required.
7. Walkways on both side of the hopper should be kept clean by removing the stones / boulders / lumpy sized coal for easy movement of workers.
8. Every day at evening 16.30 hrs. Track Hopper will be jointly inspected by EIC or his representative and the contractor. Cleanliness of track hopper unloading area will be certified.
9. Contractor supervisor should ensure that the track is free of coal before asking the Loco driver to move forward or reverse for proper placement of wagons over empty space of track hopper. In case of incorrect information leading to derailment of wagons, penalty of Rs.3000/- will be deducted from the bill of the contractor per occasion.
10. Operation of paddle feeders installed with conv.-1A/1B.
11. On arrival of the rake water spraying is to be done on the wagons for suppression of dust. Minor modification / extension / repair works, if required, to facilitate spraying process shall be carried out by the contractor.
12. After placement of Rake on the Track Hopper, arrangements shall be made for evacuation of wagons by way of fitting compressed air hose pipe to each wagon operating cylinder for opening respective bottom discharge gate. The bottom discharge doors must be closed after total emptying of the wagons. The compressed air required for opening / closing of bottom discharge gate will be supplied by the compressors installed for the purpose. Release of rakes, if required on the hopper is to be done by the contractor. Trained manpower will have to be deployed to open and close the gates of the wagons. Proper closing of wagon bottom gates after unloading and operation of primary and secondary locks of the wagons are to be ensured by the workmen of the agency. Agency shall be held responsible for in proper locking and opening of wagon bottom gates in path way. Operation of the compressor & opening / closing of the airline valves will be done by the agency.
13. Pocking of coal heap to push the coal inside the hopper through the grating at the grating platform has to be done by the agency. Cleaning of jamming of the mouth opening of hoppers at the paddle feeder platforms has to be done by the agency.
14. Tools required for pushing the coal into the hoppers, nipple to connect air hose pipe to the power cylinder of the wagon and tools required for clearing the jamming of mouth opening of hopper at paddle feeder platform have to be arrange by the agency.
15. Complete evacuation of the wagons is to be insured by the agency by watching the wagon internals through the watch platform made especially for above purpose. Residual coal (if any) has to be removed from the wagon.
16. Agency should be ready with cutting and grinding set at unloading point for their use as and when required.
